Dear Susan and Roger

During the hearing of Ieng Thirith's fitness to stand trial on 31 August 2012, I made reference to the fact that many accused before the ICTY and ICTR have been held in detention for periods between 5 and 10 years (p.118 English transcript). I also indicated I could provide some statistics separately.

To assist the Chamber and the parties, our office has compiled a table of ICTY and ICTR accused who have been held in detention for periods ranging from 5 to 10 years (also noting that there are several cases at the ICTR where detention has exceeded 10 years). We have compiled this information by reviewing the cases and ascertaining the length of detention for individual accused on the basis of publicly available filings. While every effort has been made to ensure that the data is 100% accurate, if the Chamber wishes specific cases examined in more detail, we would be happy to do so.

Would you be so kind to forward this to the judges.

Table of cases with detention ranging 5-10 years (ICTY, ICTR).pdf

Kind regards

Tarik
