December 19, 2012**

The Khmer Rouge tribunal disclosed Wednesday alleged crime sites at 14 locations in Battambang, Pursat, Takeo, Kompong Thom and Kompong Cham provinces.

The international co-investigating judge at the Extraordinary Chambers in the Courts of Cambodia said the sites were being investigated as part of Case File 004.

Three of the five locations in Pursat and all four locations in Takeo are related to the treatment of Khmers born in southern Vietnam, a statement said.

The two other Pursat locations are related to treatment of Central Zone evacuees while the location in Kompong Thom is related to the purge of the Central Zone.

"Any witnesses or victims with information concerning these sites may contact the ECCC Victims Support Section, where they will be given further information about giving evidence and eligibility to apply as civil parties," the statement said.
